Dear Sirs,

I would like to take this opportunity to inform you how successful I have found your Quickfencer.

Because of the nature of our work I have fitted the quick fencer to the front loader on our tractor and am amazed that I have managed to carry out the amount of fencing I have done over the last 22 years without it. It has helped to make our job easy!

My employee was very sceptical about the machine at first being and ex-farm worker he has seen many new ideas come and go. However, when it only took 3 days for the two of us to erect 3200 metres of stock fence (tensioned and stapled) in very wet conditions (see attached photos) he converted. For the first time in a long while we had no cut figures or wet knees and the swear box is nearly empty!

Please find attached a collection of photos showing the way we work using your machine hope it is interesting for you.

Yours Faithfully

NEW FOR 2004
